AUTHOR INDEX

Amembal, A.
Fire Retardant Analysis of an FRP Composite Before and After the Tunnel Test, p. 22

Bauer, R. G.
Fire Retardant Emulsion Polymers, p. 99

Beninate, J. V.
Evaluation of Organic Bromine Compounds in the THPOH-NH_3 Flame Retardant System for Treating Polyester/Cotton Blend Fabrics, p. 201

Brauman, S. K.
Sb_2O_3-Halogen Fire Retardance in Polymers I. General Mode of Action, p. 66

Sb_2O_3-Halogen Fire Retardance in Polymers II. Antimony-Halogen Substrate Interactions, p. 117

Sb_2O_3-Halogen Fire Retardance in Polymers. III. Retardant-Polymer Substrate Interactions, p. 138

Sb_2O_3-Halogen Fire Retardance in Polymers. IV. Combustion Performance, p. 225

Brolly, A. S.
Sb_2O_3-Halogen Fire Retardance in Polymers I. General Mode of Action, p. 66

Sb_2O_3-Halogen Fire Retardance in Polymers. IV. Combustion Performance, p. 225

Chamberlain, D. L.
Sb_2O_3-Halogen Fire Retardance in Polymers. IV. Combustion Performance, p. 225

Chandik, B. V.
Additive and Reactive Brominated Flame Retardants in Corrosion Resistant Polyester and Vinyl Ester Resin, p. 211

Cooper, Jr., A. S.
Flame-Resistant Finish With Chlorine Bleach Laundering Capability for Cotton Printcloth, p. 265

Damant, G. H.
The Effect of Flame Retardants on Properties, Flammability, and Relative Toxicity of Some Conventional Flexible Polyurethane Foams, p. 84

Danna, G. F.
Flame-Resistant Finish With Chlorine Bleach Laundering Capability for Cotton Printcloth, p. 265

Drake, Jr., G. L.
Evaluation of Organic Bromine Compounds in the THPOH-NH_3 Flame Retardant System for Treating Polyester/Cotton Blend Fabrics, p. 201

Fishman, N.
Sb_2O_3-Halogen Fire Retardance in Polymers. IV. Combustion Performance, p. 225

Fountain, R.
Fire Retardant Analysis of an FRP Composite Before and After the Tunnel Test, p. 22

Goins, Jr., O. K.
Additive and Reactive Brominated Flame Retardants in Corrosion Resistant Polyester and Vinyl Ester Resin, p. 211

Hilado, C. J.
The Effect of Flame Retardants on Properties, Flammability, and Relative Toxicity of Some Conventional Flexible Polyurethane Foams, p. 84

Honig, M. L.
Structure-Flammability Relationships Among Bromine and Bromophosphorus Additives in Unsaturated Polyester, p. 44

Inagaki, N.
Effects of Phosphinyl Substituents on Thermal Degradation and Flammability of Cellulose, p. 181

Katsuura, K.
Effects of Phosphinyl Substituents on Thermal Degradation and Flammability of Cellulose, p. 181

Kavchok, R. W.
Fire Retardant Emulsion Polymers, p. 99

Larsen, E. R.
Dibromoneopentyl Glycol — Its Effect on Smoke Evolution in Unsaturated Polyesters, p. 34

Manca, A.
Dibromoneopentyl Glycol — Its Effect on Smoke Evolution in Unsaturated Polyesters, p. 34

Margavio, M. F.
Efficiency of Phosphorus Compounds Containing P—N Bonds as Flame Retardants for Cotton Cellulose, p. 276

Masuda, K.
Studies of Flame Retardant Textile Finishing. Part I. Flame Retardant Vinylphosphonate Finishes on Cotton and Polyester/Cotton Blends, p. 53

Studies of Flame-Retardant Textile Finishing. Part II. Optimization of Flame-Retardant Finishes for Polyester Fabric and for Polyester-Cotton Blends, p. 164

Miller, D. P.
Dibromoneopentyl Glycol — Its Effect on Smoke Evolution in Unsaturated Polyesters, p. 34

Moreau, J. P.
Evaluation of Organic Bromine Compounds in the THPOH-NH_3 Flame Retardant System for Treating Polyester/Cotton Blend Fabrics, p. 201

Nagae, M.
Effects of Phosphinyl Substituents on Thermal Degradation and Flammability of Cellulose, p. 181

O'Connor, J. M.
Fire Retardant Emulsion Polymers, p. 99

Pepperman, Jr., A. B.
Efficiency of Phosphorus Compounds Containing P—N Bonds as Flame Retardants for Cotton Cellulose, p. 276

Petrella, R. V.
Dibromoneopentyl Glycol — Its Effect on Smoke Evolution in Unsaturated Polyesters, p. 34

Reeves, W. A.
Evaluation of Organic Bromine Compounds in the THPOH-NH_3 Flame Retardant System for Treat-

ing Polyester/Cotton Blend Fabrics, p. 201

Stauffer, R. C.
Dibromoneopentyl Glycol — Its Effect on Smoke Evolution in Unsaturated Polyesters, p. 34

Stepniczka, H. E.
Flame Retardant Thermoset Polyester Resins, p. 5

Tomita, M.
Studies of Flame Retardant Textile Finishing. Part I. Flame Retardant Vinylphosphonate Finishes on Cotton and Polyester/Cotton Blends, p. 53

Studies of Flame-Retardant Textile Finishing. Part II. Optimization of Flame-Retardant Finishes for Polyester Fabric and for Polyester-Cotton Blends, p. 164

Vail, S. L.
Efficiency of Phosphorus Compounds Containing P—N Bonds as Flame Retardants for Cotton Cellulose, p. 276

Yeadon, D. A.
Flame-Resistant Finish With Chlorine Bleach Laundering Capability for Cotton Printcloth, p. 265

SUBJECT INDEX

Additives, Flame Retardant
Flame Retardant Thermoset Polyester Resins, p. 5

Aliphatic Compounds
Structure-Flammability Relationships Among Bromine and Bromophosphorus Additives in Unsaturated Polyester, p. 44

Alumina Trihydrate
Dibromoneopentyl Glycol — Its Effect on Smoke Evolution in Unsaturated Polyesters, p. 34

Fire Retardant Analysis of an FRP Composite Before and After the Tunnel Test, p. 22

Analysis, Fire Retardant
Fire Retardant Analysis of an FRP Composite Before and After the Tunnel Test, p. 22

Antimony Oxide
Evaluation of Organic Bromine Compounds in the THPOH-NH_3 Flame Retardant System for Treating Polyester/Cotton Blend Fabrics, p. 201

Flame-Resistant Finish With Chlorine Bleach Laundering Capability for Cotton Printcloth, p. 265

Sb_2O_3-Halogen Fire Retardance in Polymers. II. Antimony-Halogen Substrate Interactions, p. 117

Antimony Oxychloride
Sb_2O_3-Halogen Fire Retardance in Polymers. II. Antimony-Halogen Substrate Interactions, p. 117

Antimony Trioxide/PVC
The Effect of Flame Retardants on Properties, Flammability and Relative Toxicity of Some Conventional Flexible Polyurethane Foams, p. 84

Aqueous Emulsion
Evaluation of Organic Bromine

Compounds in the THPOH-NH_3 Flame Retardant System for Treating Polyester/Cotton Blend Fabrics, p. 201

Aromatic Compounds
Structure-Flammability Relationships Among Bromine and Bromophosphorus Additives in Unsaturated Polyester, p. 44

Bathroom Fixtures
Fire Retardant Analysis of an FRP Composite Before and After the Tunnel Test, p. 22

Brominated Flame Retardants
Additive and Reactive Brominated Flame Retardants in Corrosion Resistant Polyester and Vinyl Ester Resin, p. 211

Brominated Organophosphate
The Effect of Flame Retardants on Properties, Flammability and Relative Toxicity of Some Conventional Flexible Polyurethane Foams, p. 84

Brominated Polyester Resins
Dibromoneopentyl Glycol — Its Effect on Smoke Evolution in Unsaturated Polyesters, p. 34

Bromine
Structure-Flammability Relationships Among Bromine and Bromophosphorus Additives in Unsaturated Polyester, p. 44

Bromine Polyester
Studies of Flame-Retardant Textile Finishing. Part II. Optimization of Flame-Retardant Finishes for Polyester Fabric and for Polyester-Cotton Blends, p. 164

Bromophosphorus
Structure-Flammability Relationships Among Bromine and Bromophosphorus Additives in Unsaturated Polyester, p. 44

Bulk Analysis
Fire Retardant Analysis of an FRP Composite Before and After the Tunnel Test, p. 22

Burning Rate
Fire Retardant Analysis of an FRP Composite Before and After the Tunnel Test, p. 22

Sb_2O_3-Halogen Fire Retardance in Polymers. IV. Combustion Performance, p. 225

1,3-Butadiene
Fire Retardant Emulsion Polymers, p. 99

Cellulose
Effects of Phosphinyl Substituents on the Thermal Degradation and Flammability of Cellulose, p. 181

Cellulose Diethyl Phosphate (OPO)
Effects of Phosphinyl Substituents on the Thermal Degradation and Flammability of Cellulose, p. 181

Cellulose Diethyl Phosphine Oxide (CPC)
Effects of Phosphinyl Substituents on the Thermal Degradation and Flammability of Cellulose, p. 181

Charring
Sb_2O_3-Halogen Fire Retardance in Polymers. IV. Combustion Performance, p. 225

Chlorine Bleach
Flame-Resistant Finish With Chlorine Bleach Laundering Capability for Cotton Printcloth, p. 265

Chloro-Wax
Fire Retardant Analysis of an FRP Composite Before and After the Tunnel Test, p. 22

Combustion Performance
Sb_2O_3-Halogen Fire Retardance in Polymers. IV. Combustion Performance, p. 225

Composite, FRP
Fire Retardant Analysis of an FRP Composite Before and After the Tunnel Test, p. 22

Compounding
Fire Retardant Emulsion Polymers, p. 99

Corrosion Resistance
Additive and Reactive Brominated Flame Retardants in Corrosion Resistant Polyester and Vinyl Ester Resin, p. 211

Cotton
Studies of Flame Retardant Textile Finishing. Part I. Flame Retardant Vinylphosphonate Finishes on Cotton and Polyester/Cotton Blends, p. 53

Cotton Cellulose
Efficiency of Phosphorus Compounds Containing P—N Bonds as Flame Retardants for Cotton Cellulose, p. 276

Cotton Printcloth
Flame-Resistant Finish With Chlorine Bleach Laundering Capability for Cotton Printcloth, p. 265

Crosslinked Polyester
Sb_2O_3-Halogen Fire Retardance in Polymers. III. Retardant-Polymer Substrate Interactions, p. 138

Curing
Additive and Reactive Brominated Flame Retardants in Corrosion Resistant Polyester and Vinyl Ester Resin, p. 211

Evaluation of Organic Bromine Compounds in the THPOH-NH_3 Flame Retardant System for Treating Polyester/Cotton Blend Fabrics, p. 201

Depolymerization
Effects of Phosphinyl Substituents on the Thermal Degradation and Flammability of Cellulose, p. 181

Dibromoneopentyl Glycol
Dibromoneopentyl Glycol — Its Effect on Smoke Evolution in Unsaturated Polyesters, p. 34

Diethyl Cellulose Phosphonate (CPO)
Effects of Phosphinyl Substituents on the Thermal Degradation and Flammability of Cellulose, p. 181

Dimethyl Methylphosphonate
Fire Retardant Analysis of an FRP Composite Before and After the Tunnel Test, p. 22

Disperse Dyeing
Studies of Flame-Retardant Textile Finishing. Part II. Optimization of Flame-Retardant Finishes for Polyester Fabric and for Polyester-Cotton Blends, p. 164

Driven-Rod Configuration
Sb_2O_3-Halogen Fire Retardance in Polymers. IV. Combustion Performance, p. 225

Elastomers
Fire Retardant Emulsion Polymers, p. 99

Emulsion Polymers
Fire Retardant Emulsion Polymers, p. 99

Extinction Measurements
Sb_2O_3-Halogen Fire Retardance in Polymers. IV. Combustion Performance, p. 225

Fabrics, Polyester/Cotton Blend
Evaluation of Organic Bromine Compounds in the THPOH-NH_3 Flame Retardant System for Treating Polyester/Cotton Blend Fabrics, p. 201

Fire Retardance
Sb_2O_3-Halogen Fire Retardance in Polymers. IV. Combustion Performance, p. 225

Fire Retardants
Fire Retardant Analysis of an FRP Composite Before and After the Tunnel Test, p. 22

Flame-Resistant Finish With Chlorine Bleach Laundering Capability for Cotton Printcloth, p. 265

Fire Retardant Mechanisms
Sb_2O_3-Halogen Fire Retardance in Polymers I. General Mode of Action, p. 66

Sb_2O_3-Halogen Fire Retardance in Polymers. II. Antimony-Halogen Substrate Interactions, p. 117

Sb_2O_3-Halogen Fire Retardance in Polymers. III. Retardant-Polymer Substrate Interactions, p. 138

Flame Retardants
Additive and Reactive Brominated Flame Retardants in Corrosion Resistant Polyester and Vinyl Ester Resin, p. 211

The Effect of Flame Retardants on Properties, Flammability, and Relative Toxicity of Some Conventional Flexible Polyurethane Foams, p. 84

Effects of Phosphinyl Substituents on the Thermal Degradation and Flammability of Cellulose, p. 181

Efficiency of Phosphorus Compounds Containing P—N Bonds as Flame Retardants for Cotton Cellulose, p. 276

Evaluation of Organic Bromine Compounds in the THPOH-NH_3 Flame Retardant System for Treating Polyester/Cotton Blend Fabrics, p. 201

Fire Retardant Emulsion Polymers, p. 99

Flame Retardant Thermoset Polyester Resins, p. 5

Structure-Flammability Relationships Among Bromine and Bromophosphorus Additives in Unsaturated Polyester, p. 44

Studies of Flame-Retardant Textile Finishing. Part II. Optimization of Flame-Retardant Finishes for Polyester Fabric and for Polyester-Cotton Blends, p. 164

Flame Retardant Finish
Efficiency of Phosphorus Compounds Containing P—N Bonds as

Flame Retardants for Cotton Cellulose, p. 276

Studies of Flame Retardant Textile Finishing. Part I. Flame Retardant Vinylphosphonate Finishes on Cotton and Polyester/Cotton Blends, p. 53

Flame-Resistant Finish
Flame-Resistant Finish With Chlorine Bleach Laundering Capability for Cotton Printcloth, p. 265

Flame Spread
The Effect of Flame Retardants on Properties, Flammability and Relative Toxicity of Some Conventional Flexible Polyurethane Foams, p. 84

Flame Spread Measurements
Sb_2O_3-Halogen Fire Retardance in Polymers. IV. Combustion Performance, p. 225

FRP Composite
Fire Retardant Analysis of an FRP Composite Before and After the Tunnel Test, p. 22

Fyrol 76
Studies of Flame Retardant Textile Finishing. Part I. Flame Retardant Vinylphosphonate Finishes on Cotton and Polyester/Cotton Blends, p. 53

Studies of Flame-Retardant Textile Finishing. Part II. Optimization of Flame-Retardant Finishes for Polyester Fabric and for Polyester-Cotton Blends, p. 164

Halogen Compounds
Flame-Resistant Finish With Chlorine Bleach Laundering Capability for Cotton Printcloth, p. 265

Sb_2O_3-Halogen Fire Retardance in Polymers. IV. Combustion Performance, p. 225

Halogenated Resins
Additive and Reactive Brominated Flame Retardants in Corrosion Resistant Polyester and Vinyl Ester Resin, p. 211

Halogens
Sb_2O_3-Halogen Fire Retardance in Polymers. II. Antimony-Halogen Substrate Interactions, p. 117

Ignition
The Effect of Flame Retardants on Properties, Flammability and Relative Toxicity of Some Conventional Flexible Polyurethane Foams, p. 84

Ignition Measurements
Sb_2O_3-Halogen Fire Retardance in Polymers. IV. Combustion Performance, p. 225

Laundering
Evaluation of Organic Bromine Compounds in the THPOH-NH_3 Flame Retardant System for Treating Polyester/Cotton Blend Fabrics, p. 201

Flame-Resistant Finish With Chlorine Bleach Laundering Capability for Cotton Printcloth, p. 265

Methacrylate Monomer
Fire Retardant Emulsion Polymers, p. 99

Markets, Polyester Resins
Flame Retardant Thermoset Polyester Resins, p. 5

NBS Smoke Chamber
Dibromoneopentyl Glycol -- Its

Effect on Smoke Evolution in Unsaturated Polyesters, p. 34

Neopentyl Bromides
Dibromoneopentyl Glycol – Its Effect on Smoke Evolution in Unsaturated Polyesters, p. 34

Structure-Flammability Relationships Among Bromine and Bromophosphorus Additives in Unsaturated Polyester, p. 44

Nitrogen-Phosphorus Synergism
Efficiency of Phosphorus Compounds Containing P–N Bonds as Flame Retardants for Cotton Cellulose, p. 276

N-Methylol Resins
Flame-Resistant Finish With Chlorine Bleach Laundering Capability for Cotton Printcloth, p. 265

Organic Bromine Compounds
Evaluation of Organic Bromine Compounds in the THPOH-NH_3 Flame Retardant System for Treating Polyester/Cotton Blend Fabrics, p. 201

Oxygen Index
The Effect of Flame Retardants on Properties, Flammability and Relative Toxicity of Some Conventional Flexible Polyurethane Foams, p. 84

Efficiency of Phosphorus Compounds Containing P–N Bonds as Flame Retardants for Cotton Cellulose, p. 276

Fire Retardant Emulsion Polymers, p. 99

Structure-Flammability Relationships Among Bromine and Bromophosphorus Additives in Unsaturated Polyester, p. 44

Physical Properties
Additive and Reactive Brominated Flame Retardants in Corrosion Resistant Polyester and Vinyl Ester Resin, p. 211

The Effect of Flame Retardants on Properties, Flammability, and Relative Toxicity of Some Conventional Flexible Polyurethane Foams, p. 84

Fire Retardant Emulsion Polymers, p. 99

Phosphate Ester
Effects of Phosphinyl Substituents on the Thermal Degradation and Flammability of Cellulose, p. 181

Phosphinyl Substituents
Effects of Phosphinyl Substituents on the Thermal Degradation and Flammability of Cellulose, p. 181

Phosphorus Compounds
Efficiency of Phosphorus Compounds Containing P–N Bonds as Flame Retardants for Cotton Cellulose, p. 276

Phosphorus Fire Retardants
Flame-Resistant Finish With Chlorine Bleach Laundering Capability for Cotton Printcloth, p. 265

P–N Bonds
Efficiency of Phosphorus Compounds Containing P–N Bonds as Flame Retardants for Cotton Cellulose, p. 276

Polyene Structure
Effects of Phosphinyl Substituents on the Thermal Degradation and

Flammability of Cellulose, p. 181

Polyester

Additive and Reactive Brominated Flame Retardants in Corrosion Resistant Polyester and Vinyl Ester Resin, p. 211

Sb_2O_3-Halogen Fire Retardance in Polymers I. General Mode of Action, p. 66

Studies of Flame-Retardant Textile Finishing. Part II. Optimization of Flame-Retardant Finishes for Polyester Fabric and for Polyester-Cotton Blends, p. 164

Polyester/Cotton Blends

Evaluation of Organic Bromine Compounds in the THPOH-NH_3 Flame Retardant System for Treating Polyester/Cotton Blend Fabrics, p. 201

Studies of Flame Retardant Textile Finishing. Part I. Flame Retardant Vinylphosphonate Finishes on Cotton and Polyester/Cotton Blends, p. 53

Studies of Flame Retardant Textile Finishing. Part II. Optimization of Flame-Retardant Finishes for Polyester Fabric and for Polyester-Cotton Blends, p. 164

Polyester Resins

Dibromoneopentyl Glycol – Its Effect on Smoke Evolution in Unsaturated Polyesters, p. 34

Flame Retardant Thermoset Polyester Resins, p. 5

Structure-Flammability Relationships Among Bromine and Bromophosphorus Additives in Unsaturated Polyester, p. 44

Polyesters, Unsaturated

Flame Retardant Thermoset Polyester Resins, p. 5

Polymers

Fire Retardant Emulsion Polymers, p. 99

Sb_2O_3-Halogen Fire Retardance in Polymers. IV. Combustion Performance, p. 225

Polyolefins

Sb_2O_3-Halogen Fire Retardance in Polymers I. General Mode of Action, p. 66

Polypropylene

Sb_2O_3-Halogen Fire Retardance in Polymers. III. Retardant-Polymer Substrate Interactions, p. 138

Polystyrene

Sb_2O_3-Halogen Fire Retardance in Polymers I. General Mode of Action, p. 66

Sb_2O_3-Halogen Fire Retardance in Polymers. III. Retardant-Polymer Substrate Interactions, p. 138

Polyvinyl Chloride

Flame-Resistant Finish With Chlorine Bleach Laundering Capability for Cotton Printcloth, p. 265

P–O–P Linkage

Effects of Phosphinyl Substituents on the Thermal Degradation and Flammability of Cellulose, p. 181

Pyrolysis Products

Sb_2O_3-Halogen Fire Retardance in Polymers. III. Retardant-Polymer Substrate Interactions, p. 138

Reactive Brominated Flame Retardants
Additive and Reactive Brominated Flame Retardants in Corrosion Resistant Polyester and Vinyl Ester Resin, p. 211

Reinforced Structures
Flame Retardant Thermoset Polyester Resins, p. 5

Rubber Products
Fire Retardant Emulsion Polymers, p. 99

Sb_2O_3
Sb_2O_3-Halogen Fire Retardance in Polymers. II. Antimony-Halogen Substrate Interactions, p. 117

Sb_2O_3-Chlorine
Sb_2O_3-Halogen Fire Retardance in Polymers. IV. Combustion Performance, p. 225

Sb_2O_3-Chlorowax
Sb_2O_3-Halogen Fire Retardance in Polymers I. General Mode of Action, p. 66

Sb_2O_3-Halogen
Sb_2O_3-Halogen Fire Retardance in Polymers. III. Retardant-Polymer Substrate Interactions, p. 138

$SbCl_3$ Flame Inhibition
Sb_2O_3-Halogen Fire Retardance in Polymers I. General Mode of Action, p. 66

$SbCl_3$ Identification
Sb_2O_3-Halogen Fire Retardance in Polymers I. General Mode of Action, p. 66

$SbCl_3$ Volatilization
Sb_2O_3-Halogen Fire Retardance in Polymers I. General Mode of Action, p. 66

$SbCl_3$ Yields
Sb_2O_3-Halogen Fire Retardance in Polymers I. General Mode of Action, p. 66

Smoke Generation
Dibromoneopentyl Glycol — Its Effect on Smoke Evolution in Unsaturated Polyesters, p. 34

The Effect of Flame Retardants on Properties, Flammability and Relative Toxicity of Some Conventional Flexible Polyurethane Foams, p. 84

Fire Retardant Analysis of an FRP Composite Before and After the Tunnel Test, p. 22

Structural Reinforcement
Fire Retardant Analysis of an FRP Composite Before and After the Tunnel Test, p. 22

Structural-FR Relationship
Structure-Flammability Relationships Among Bromine and Bromophosphorus Additives in Unsaturated Polyester, p. 44

Surface Analysis
Fire Retardant Analysis of an FRP Composite Before and After the Tunnel Test, p. 22

Tests, Flammability
The Effect of Flame Retardants on Properties, Flammability and Relative Toxicity of Some Conventional Flexible Polyurethane Foams, p. 84

Tetrabromophthalic Anhydride
Flame Retardant Thermoset Polyester Resins, p. 5

Textile Finishing, Flame Retardance
Studies of Flame Retardant Textile Finishing. Part I. Flame Retardant Vinylphosphonate Finishes on Cotton and Polyester/Cotton Blends, p. 53

Studies of Flame-Retardant Textile Finishing. Part II. Optimization of Flame-Retardant Finishes for Polyester Fabric and for Polyester-Cotton Blends, p. 164

Thermal Degradation
Effects of Phosphinyl Substituents on the Thermal Degradation and Flammability of Cellulose, p. 181

Thermal Environment
Sb_2O_3-Halogen Fire Retardance in Polymers. IV. Combustion Performance, p. 225

Thermogravimetric Analysis
The Effect of Flame Retardants on Properties, Flammability and Relative Toxicity of Some Conventional Flexible Polyurethane Foams, p. 84

Effects of Phosphinyl Substituents on the Thermal Degradation and Flammability of Cellulose, p. 181

Sb_2O_3-Halogen Fire Retardance in Polymers. II. Antimony-Halogen Substrate Interactions, p. 117

Sb_2O_3-Halogen Fire Retardance in Polymers. III. Retardant-Polymer Substrate Interactions, p. 138

THPOH
Efficiency of Phosphorus Compounds Containing P—N Bonds as Flame Retardants for Cotton Cellulose, p. 276

THPOH-NH_3
Evaluation of Organic Bromine Compounds in the THPOH-NH_3 Flame Retardant System for Treating Polyester/Cotton Blend Fabrics, p. 201

Toxicity
The Effect of Flame Retardants on Properties, Flammability, and Relative Toxicity of Some Conventional Flexible Polyurethane Foams, p. 84

Tris(2,3-dibromopropyl)Phosphate
The Effect of Flame Retardants on Properties, Flammability and Relative Toxicity of Some Conventional Flexible Polyurethane Foams, p. 84

Flame Retardant Thermoset Polyester Resins, p. 5

Studies of Flame Retardant Textile Finishing. Part I. Flame Retardant Vinylphosphonate Finishes on Cotton and Polyester/Cotton Blends, p. 53

Studies of Flame-Retardant Textile Finishing. Part II. Optimization of Flame-Retardant Finishes for Polyester Fabric and for Polyester-Cotton Blends, p. 164

Tunnel Test
Fire Retardant Analysis of an FRP Composite Before and After the Tunnel Test, p. 22

Unsaturated Polyester
Flame Retardant Thermoset Polyester Resins, p. 5

Structure-Flammability Relationships Among Bromine and Bromophosphorus Additives in Unsaturated Polyester, p. 44

Unsaturated Polyester Resins
Dibromoneopentyl Glycol — Its Effect on Smoke Evolution in Unsaturated Polyesters, p. 34

Upholstery
The Effect of Flame Retardants on Properties, Flammability, and Relative Toxicity of Some Conventional Flexible Polyurethane Foams, p. 84

Urethane Foams, Flexible
The Effect of Flame Retardants on Properties, Flammability, and Relative Toxicity of Some Conventional Flexible Polyurethane Foams, p. 84

Vinyl Ester Resin
Additive and Reactive Brominated Flame Retardants in Corrosion Resistant Polyester and Vinyl Ester Resin, p. 211

Vinylidene Chloride
Fire Retardant Emulsion Polymers, p. 99

Vinyl Phosphonate
Studies of Flame Retardant Textile Finishing. Part I. Flame Retardant Vinylphosphonate Finishes on Cotton and Polyester/Cotton Blends, p. 53

Studies of Flame-Retardant Textile Finishing. Part II. Optimization of Flame-Retardant Finishes for Polyester Fabric and for Polyester-Cotton Blends, p. 164

Vulcanization
Fire Retardant Emulsion Polymers, p. 99

X-Ray Analysis
Sb_2O_3-Halogen Fire Retardance in Polymers. II. Antimony-Halogen Substrate Interactions, p. 117
